Index of Subjects

Volume 6, 1990

Abdominal arteries, scan protocol, 1
Abstract review, 53, 114, 179, 238, 298
Adnexa, mass endovaginal vs. transabdominal sonography, 92
Adrenal glands
  in bilateral renal agenesis, postnatal evaluation, 43
  mass, positioning strategy and optimal visualization, 286

Bayes' rule, application to diagnostic test evaluation, 212
Beckwith-Wiedemann syndrome (diagnostic challenge), 235
Bladder distention, hydronephrosis secondary to, 87
Blood flow, intraoperative evaluation with color flow Doppler analysis, 99
Book review
  Prenatal Diagnosis of Congenital Anomalies, 51

Campomelia, with narrow thorax, 40
Cancer. *See also specific cancers and carcinomas*
  rectal wall, staging, 13
Cardiomyopathy, hypertrophic, in infant of diabetic mother (case report), 328
Cardiovascular disease, Framingham Heart Study, 137
Computers, in the sonographic laboratory, 144
Correlation coefficient, interpretation: basic review, 35
Credibility, of sonographers, 336
Cyst
  dermoid, intratubal location (case report), 229
  jejunal, prenatal (case report), 232
  ovarian, fetal, prenatal demonstration (case report), 161

DES, T-shaped uterus due to *in utero* exposure (case report), 318
Diagnostic challenge
  Beckwith-Wiedemann syndrome (omphalocele), 235
  rectal fistula, 46
Diagnostic testing, Bayes' rule applied to, 212
Disinfectants, for transvaginal transducers, 130
Doppler analysis
  ductus arteriosis, diagnosis in adult (case report), 324
  intraoperative color flow mapping in evaluating valvular report for mitral valve regurgitation, 99
  pressure half-time, assessing mitral stenosis with, 219
  of renal artery stenosis, duplex and color flow, 1
Ductus arteriosis, patency, diagnosis in adult (case report), 324
Dwarfism
  campomelic, with narrow thorax, 40
  thanatophoric, sonographic review, 24

Echocardiography
  of cardiac myxomas, 19
  ductus arteriosis, diagnosis in adult (case report), 324
  pressure half-time, assessment of mitral stenosis, 219
Education
  alternatives for diagnostic medical imagers, 167
  mandatory, and licensing, SDMS viewpoints, 171
  radiology prerequisites, 343

Embryonic heart rate, and age, 151
Endocarditis, bacterial (case report), 158

Fetus
  acardius acephalic monster (case report), 109
  calcified jejunal cyst (case report), 232
  cerebral ventricle, visualization, 333
  embryonic heart rate and age, 151
  Meckel's syndrome, prenatal diagnosis (case report), 224
  ovarian cyst, complicated, prenatal demonstration (case report), 161
  thorax, 270
Fistula, rectal, diagnostic challenge, 46
Framingham Heart Study, ultrasound used in, 137

Gallbladder, wall thickening, 73
Gastrointestinal tract, detection of gastric wall lesions and rectal wall cancer staging, 13

Hearing impaired, ultrasound as visual feedback, 80
Heart valve
  mitral regurgitation, evaluation (case report), 279
  mitral stenosis, assessment with Doppler echocardiography, 219
  reconstruction, intraoperative Doppler analysis, 99
  St. Jude prosthesis thrombosis (case report), 321
Hydronephrosis, secondary to bladder distention, 87

Infant
  cardiomyopathy, hypertrophic, diabetic mother (case report), 328
  postnatal renal agenesis, 43

Kidney. *See Renal*

Lithotripsy, extracorporal shock wave, 200

Meckel's syndrome, prenatal diagnosis (case report), 224
Mermaid syndrome, prenatal detection (case report), 103
Myxoma, cardiac, echocardiography of, 19

Newborn. *See Infant*

Omphalocele (diagnostic challenge), 235
Ovarian cyst, fetal, prenatal demonstration (case report), 161

Pelvic mass
  dermoid cyst, intratubal location (case report), 229
  endovaginal vs. transabdominal sonography, 92
Placenta previa, role of ultrasound in, 29
Potter's syndrome
  postnatal evaluation, 43
  with symelic bipodia sirenomelia, prenatal detection (case report), 103
Pregnancy
  acardius acephalic monster in quintuplets (case report), 109
  alpha-fetoprotein screening, 312

antepartum rupture of bicornuate uterus (case report), 164
diabetic, hypertrophic cardiomyopathy in infant (case report), 328
embryonic heart rate and age, 151
fetal calcified jejunal cyst (case report), 232
fetal cerebral ventricle, visualization, 333
fetal ovarian cyst, prenatal demonstration (case report), 161
fetal thorax, 270
Meckel's syndrome, prenatal diagnosis (case report), 224
symelic bipodia sirenomelia, prenatal detection (case report), 103
third-trimester bleeding, 29
Probe covers, for transvaginal transducers, 130
Promotions, 291
Pulmonary hypoplasia, fetal, 270

Radiation, occupational hazards in sonography, 47
Real-time ultrasound, instrumentation, 257
Renal agenesis, postnatal evaluation, 43
Renal artery, Doppler scan protocol, for detection of stenosis, 1

Sirenomelia, symelic bipodia, prenatal detection (case report), 103
Skeletal dysplasia
campomelic, with narrow thorax, 40
thanatophoric, 24
Sonographers
professional credibility, 336
promotions, 291
Sonography
computers in the sonographic laboratory, 144
occupational hazards, 47
positioning strategy and optimal visualization, of left adrenal mass, 286
real-time, instrumentation, 257
Speech therapy, ultrasound as visual feedback, 80
Statistical analysis
Bayes' rule applied to diagnostic test evaluation, 212
correlation coefficient interpretation, 35

Thrombosis
deep venous, duplex imaging evaluation (case report), 106
St. Jude prosthesis, in tricuspid position (case report), 321
Transducers
terminology, 293
transvaginal, probe covers and disinfectants for, 130

Uterus
bicornuate, antepartum rupture (case report), 164
T-shaped, due to *in utero* exposure to DES (case report), 318

Valve. *See Heart valve*
Venous thrombosis, deep, duplex imaging evaluation (case report), 106
